### Career Objective / Summary

I am a Diploma Engineer in Computer Science & Engineering from Rangpur Polytechnic Institute with solid fundamentals in computing and practical experience in PHP and Laravel development. I further enhanced my skills through advanced professional training in web application development under the IsDB-BISEW IT Scholarship Programme, gaining hands-on expertise in modern web technologies and frameworks. I am eager to apply my skills in a challenging role to contribute to innovative web solutions, drive impactful projects, and continue growing professionally in the technology sector.
